

## DRUM MOTOR SERVICE

# The perfect pit stop with the new Interroll Service & Support program

## Interroll Drum Motor Service **Better safe than sorry!**

Service is typically an urgent matter as down times in production environments are costly.

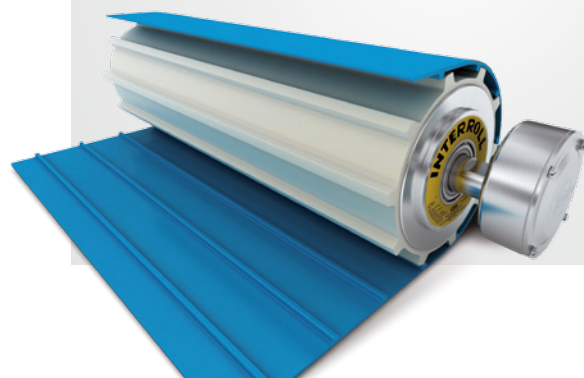

Drum motors, as key drive mechanisms for belt conveyors, **are mission critical and determine the availability entire production lines.**

For this reason, the Interroll Drum Motor Service offers a comprehensive support package for its customers, from system assessments and site inspections to preventive maintenance programs.

### LOCAL PRODUCTION - FAST & FLEXIBLE.

Our local production of drum motors with experienced Interroll product experts allows us to reduce lead times and provide flexibility to our customers.

**To guarantee the perfect pit stop.**
